Profile

Software and cybersecurity engineer working across artificial intelligence and educational technology. My research connects reliable machine learning, wireless sensing, privacy engineering and family cybersecurity with digital ethics and interdisciplinary questions in Islamic legal thought.

Education and professional training

University of the People, United States | Undergraduate studies in Computer Science, in progress. Started April 2025.

Al Madinah International University, Malaysia | Undergraduate studies in Quranic / Islamic Studies, in progress. Started June 2023.

OFPPT, Morocco | Specialized Technician Diploma in Electricity and Energy, 2022-2024.

Geeks Institute / LaStartUpStation, Technopark Casablanca | AI Full-Stack Web Development Bootcamp, October-December 2025.

Professional credentials: IBM AI Engineering Professional Certificate; Google Cybersecurity Professional Certificate; Digital Pass (Agence de Developpement du Digital).

Professional and community experience

Share'In Holding | Software & Cybersecurity Engineer (EdTech Systems), April 2026-present, hybrid. Moodle architecture, AI-supported educational workflows, security by design and vulnerability assessment.

MASAQ Center | Head of Technical Committee, appointed September 2025. Technical coordination, audiovisual infrastructure and livestreaming for events.

La Route du Succes Etudiant | Founder, established 2021. Digital academic guidance, study resources and educational content.

Afric' Artech 2026 Hackathon | Development of the Dream Build generative AI solution for the creative industry.

Research software and projects

MIRA-CSI | Experimental activity recognition from recorded Wi-Fi CSI, missing measurements and environment-cohort transfer evaluation.

AFRICA-ZT-EDU | Policy-centric zero-trust and privacy-preserving architecture for cross-border digital education in Africa.

FamilySec-Pro | Family communication safety software exploring suspicious links and unsafe messages.

Technical practice and languages

Python, JavaScript, TypeScript, Java, PHP and SQL; PyTorch, scikit-learn, NumPy, pandas, React, Django, Flask, Git, Docker, Linux, Moodle administration, network security, Jupyter and LaTeX. Arabic: fluent; English: technical proficiency; French: professional working proficiency.

Research outputs

Author: Abdessamad Bourkibate. Original titles, record types and source links are retained.

Reliability Assessment of Wi-Fi CSI-Based Activity Recognition Under Environmental Shift and Structured Measurement Loss
